Executive Summary

Vikram Singh Chauhan is a 45-year-old logistics proprietor in Gurugram, resolved across eleven departments at 81% confidence — the lowest of the resolved records, driven by two historical addresses that could not be corroborated. Property acquisitions of ₹5.00 crore between 2021 and 2023 sit against ₹59,30,000 of cumulative declared income for the same period, with no recorded financing to bridge the gap. The core transport operator licence lapsed in April 2024 while two heavy goods vehicles remain actively registered and in use. International travel is frequent and destination-concentrated in a way the declared income does not explain. Recommended for escalation.

Reason	Opened from Citizen 360 resolution — high risk (78/100) across 11 correlated departments. Primary lead: Reconcile the source of funds for the 2021 and 2023 acquisitions against filed income and sanctioned credit for those years.

Risk Assessment

Risk level High

Risk score 78 / 100

Citizen status Flagged

AI confidence 81%

Risk signal

Roughly ₹4.4 crore of asset acquisition is unexplained by declared income or recorded credit facilities.

EVIDENCE EV-IT-03 EV-LR-02 EV-LR-03

Risk signal

Core operating licence expired over a year ago while the fleet remains registered, cited and in use.

EVIDENCE EV-RTA-01 EV-TRD-01 EV-TRD-02

Risk signal

Statutory non-compliance recurs across four separate departments rather than appearing as an isolated lapse.

EVIDENCE EV-IT-02 EV-RTA-02 EV-TRD-03 EV-GST-01

Risk signal

Travel behaviour is inconsistent with declared income, and one departure record is flagged.

EVIDENCE EV-IM-01 EV-IM-02

AI Summary — Domain Analysis

Identity Summary

Primary identifiers (Aadhaar, PAN, passport, voter ID) are verified and mutually consistent. Resolution confidence is depressed by two historical addresses — a Delhi address from 2004-09 in particular matched at only 44%.

EVIDENCE EV-ID-01 EV-ADR-01

Income Summary

Declared income across FY2021-25 totals ₹59,30,000. The FY2022-23 return is overdue with nil tax paid, and the FY2024-25 return is under departmental review. An income certificate issued in 2023 was never verified.

EVIDENCE EV-IT-01 EV-IT-02 EV-IT-03 EV-REV-02

Property Summary

Four holdings including a government lease. The 2021 warehouse (₹3,20,00,000) and 2023 land parcel (₹1,80,00,000) together exceed cumulative declared income by roughly ₹4.4 crore. The land parcel carries an open mutation objection before the Revenue Court.

EVIDENCE EV-LR-02 EV-LR-03 EV-IT-03 EV-REV-01

Travel Summary

Eleven international trips since 2019 with an average stay of 4.0 days, seven of them to the same destination. No foreign business entity is recorded against the citizen or the company that would explain the frequency. One departure carries a flagged immigration status.

EVIDENCE EV-IM-01 EV-IM-02 EV-MCA-01

Employment Summary

Proprietor since 2011 with an active managing directorship from 2020. One of two GST registrations is suspended with no filing since November 2023, while the associated warehousing operation remains registered.

EVIDENCE EV-MCA-01 EV-MCA-02 EV-GST-01

Behaviour Summary

A repeating pattern of lapsed statutory obligations: operator licence expired, national permit expired, fitness certificate expired, one challan unpaid and another contested, life insurance lapsed, and a working capital facility marked irregular.

EVIDENCE EV-RTA-01 EV-RTA-02 EV-TRD-02 EV-TRD-03 EV-BCB-02

Risk Summary

Risk score 78/100 (High), driven by three independent signals: an unexplained income-to-asset gap, continued commercial operation under an expired licence, and travel behaviour unsupported by declared income.

EVIDENCE EV-IT-03 EV-RTA-01 EV-TRD-01 EV-IM-01

Recommendations

Escalate for a joint financial records cross-check (High priority)

Open a coordinated review between the Income Tax Department and the Land Records Department covering FY2021-25 to establish the source of funds behind the warehouse and land acquisitions. This is the single largest unexplained signal on the profile.

EVIDENCE EV-IT-03 EV-LR-02 EV-LR-03 EV-BCB-02

Notify the Regional Transport Authority of active operation under an expired licence (High priority)

The operator licence and national permit both expired in 2024, yet a fleet vehicle was challaned for permit violation in May 2024 and a second is running on an expired fitness certificate. Enforcement should be notified independently of the financial review.

EVIDENCE EV-RTA-01 EV-RTA-02 EV-TRD-01 EV-TRD-02 EV-TRD-03

Request an immigration review of the flagged departure (High priority)

The 26 September 2024 departure to the UAE carries a flagged status that has not been resolved. Combined with eleven trips in five years against declared income, this warrants a formal request to the Bureau of Immigration.

EVIDENCE EV-IM-01 EV-IM-02 EV-IT-03

Suspend the PM Kisan disbursement pending the mutation outcome (Medium priority)

Scheme eligibility rests on a landholding whose mutation is objected to before the Revenue Court. Disbursement should pause until the objection is decided.

EVIDENCE EV-REV-01 EV-LR-03

Flag for manual review before any new licence, permit or scheme approval (Medium priority)

Given open items across four departments, no new statutory approval should be granted to this citizen or the associated entities without officer review.
